[1] As of fall 2022, all course numbers will be 4 numbers/characters. In general, if the old number was <100, the new number will be the old number prefaced by a zero. If the old number was >100, the new course number will be the old number with a zero appended to the end, e.g., FNCE 100 becomes FNCE 1000.

[2] Penn uses a course unit (CU) system to weight courses. Most courses at Penn are worth 1 CU.
